Dear Friend:

This summer my friend planted a small garden of tomatoes and peppers. He did it in memory of his mother who would annually plant a hundred tomato plants and dozens of pepper plants along with a variety of vegetables – corn, zucchini, beans, peas, potatoes, onions and so on. There were days when my friend’s mother would prepare her family a meal with everything straight from the garden, save the butter on the corn. For them, meal time was family time. The two were intimately intertwined.

At Jubilee Soup Kitchen, meal time is intimately intertwined with family. Those who have ever been here when our meals were served know that before we eat, we pray. We give thanks to God for our blessings, our meal and our benefactors. Our prayer reminds us that we are one family, that we are all God’s children.

As we take advantage of this marvelous weather to accomplish what needs to be done in life or to relax from our busy schedules, perhaps we can take a moment to give thanks to God for our blessings and remember how our meals are intimately intertwined with our family, whether that be our parents, siblings and children or the guests we feed at Jubilee Soup Kitchen.

Your generosity to Jubilee Soup Kitchen means that you are part of our family. We thank you for your support and ask that you continue to support us these days when so many of our guests are looking for a family that will welcome them to the table. I ask you to continue your generosity to Jubilee Kitchen through your financial support. *Please send your check payable to: Jubilee Association, Inc. P. O. Box 42251, Pittsburgh PA 15203.*

If you want to see what is happening at Jubilee Kitchen, please feel free to visit us anytime in person or on the web (<http://jubileesoupkitchen.org>). ***On behalf of Jubilee’s guests, I thank you for your generous support.*** May God bring peace to you and your family whenever and wherever you gather.

Gratefully,

Sister Liguori Rossner
